SUMMARY

Full Stack Web Developer with a background in Economics and a passion for technology. Effective at problem solving and finding efficient solutions to problems in production. Reliable and consistent hard worker with experience working with diverse teams to accomplish group goals.

TECHNICAL SKILLS

Languages: HTML5 | CSS3 | JavaScript | jQuery | SQL

Technologies: MongoDB | GIT | RESTful API's | Node

Frameworks: Bootstrap 4 | React | Express | Material-UI | Handlebars

RELEVANT EXPERIENCE

Desktop Technician

2019 – Present

TAMS

Pleasant Grove, UT

Worked in the tech department with a team to fulfil orders and refurbish computers. Work included analyzing and diagnosing software and hardware issues with computers and coming up with solutions to solve said issues. Was responsible for managing large quantities of inventory and carried out large projects in a timely manner.

Key Accomplishments:

- Fulfilled the largest and most complex desktop orders in TAMS sales history.

ADDITIONAL EXPERIENCE

Real Estate Development Intern

2017

JCJ Investment / Acclaim Companies

Menlo Park, CA

Shadowed several partners, site managers, and property managers to learn and provide support with daily operations. Work included working as a property manager, conducting market research & analysis, managing property inspections, analyzing budget variance reports on current projects, and planning and organizing current asset maintenance.

PROJECTS

Trade and Play – React application where users can create and login to a profile where they can collect digital sports trading cards. In the app users can view their collections, open booster packs, and add information to their profile.

Deployment Link – <https://trade-and-play.herokuapp.com>

GitHub repo – <https://github.com/Arnette110/Trade-and-Play>

Sports League Manager – Application where users can create, manage, and search for local sports leagues. Uses an MVC design, user authentication and MySQL db.

Deployment Link – <https://soggybottomleaguemanager.herokuapp.com/>

GitHub repo – <https://github.com/seaninking/SoggyBottomboys-Project2>
